PROJECTS & TESTIMONIALS

A Colombian Cuisine Masterclass with Ribbon & Wicker Hampers

Ribbon & Wicker had the honour of working alongside the Embassy of Colombia in preparation for a virtual [Colombian Cuisine Masterclass](#) on sustainable eating and biodiversity.

Ribbon & Wicker was commissioned to deliver a number of bespoke hampers that would feature in an online culinary masterclass. Each lucky participant was provided with a hamper full of the required ingredients, allowing them to follow and recreate a number of inspiring traditional recipes.

Ribbon & Wicker - We Can Do It!

Ribbon & Wicker had the pleasure of working with The UK's leading independent transformation partner for public services in the run up to Christmas 2020.

Ribbon & Wicker was asked to source, construct and build 274 hampers in less than 3 weeks and develop 5 types of hamper to accommodate different dietary requirements.

“I have to thank you for being so flexible and accommodating on our dietary requirements and also accepting such a last minute large order, I know it must have been stressful and we're very appreciative for everything.”
Anda, T.

“Thank you for making this whole process so smooth and successful. You stepped into the breach for us and the hampers are going down a storm! What a great service!”
Mark, H.

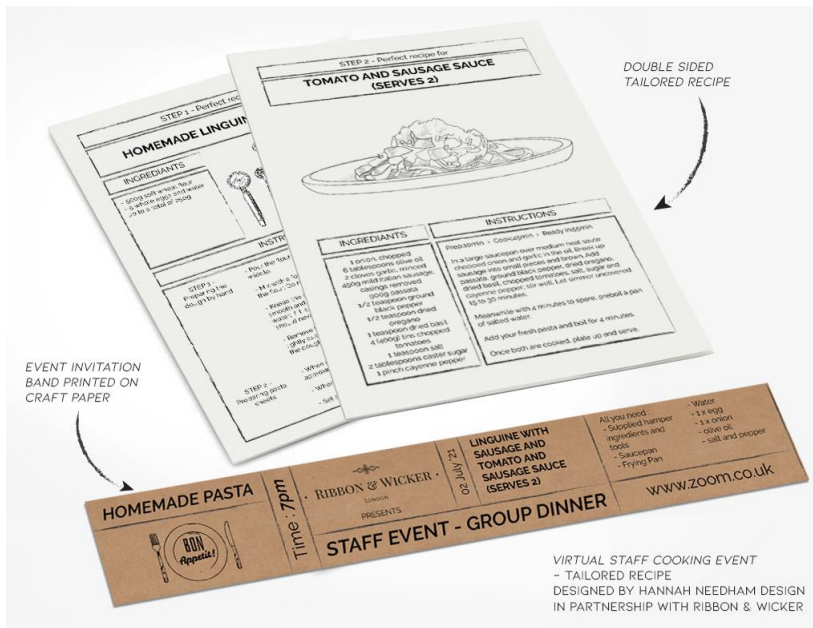

ACTIVITY HAMPERS

Looking for something a little different and original that gets people involved?
